#### Description

Kingston's NV2 PCIe 4.0 NVMe SSD is a substantial next-gen storage solution powered by a Gen 4x4 NVMe controller. NV2 delivers read/write speeds up to 3,500/2,800MB/s with lower power requirements and lower heat to help optimize your system's performance and deliver value without sacrifice. The compact single-sided M.2 2280 22x80mm design expands storage up to 2TB while saving space for other components, making NV2 ideal for thinner notebooks, small form factor SFF systems, and DIY motherboards. Available in capacities from 250GB–2TB to give you all the space you need for applications, documents, photos, videos, and more.
